DECISION GIVEN IN BANK CASE BY JUDGE SEWARD

THE COURT ALLOWS JUDGMENT
FOR BUILDING ASSOCIATION
FOR EIGHT THOUSAND.

PLAINTIFF CLAIMED \$23,000

Portion in Dispute was \$14,000 Made
Up of Two Items—Other Suits
Still Pending.

Court of Common Pleas handed down a decision Tuesday morning in the case of George P. Webb, receiver of the Homestead Building and Savings company vs. A. A. Stasel, receiver of the Newark Savings Bank Company. This was a suit by Mr. Webb, as receiver, to compel the allowance by the receiver of the bank in the sum of \$23,000, the balance due upon the deposit account of the Building Association in the bank as shown by the books. An answer was filed to this suit by Mr. Stasel setting up the fact that in 1902, Mr. Lingafelter, then cashier of the bank and secretary of the Building Association, had attempted to pay into the Building Association the sum of \$10,000 upon the demand of the inspectors of Building Associations at the time they found the shortage in the association and attempted to do so by charging himself upon the books of the bank with \$10,000 and credit the association upon its account in the bank with a like sum.

In 1903 on the demand of Mr. Webb, who was then examining the books in the Building Association, and finding a shortage of \$4000 made demand upon Mr. Lingafelter for that sum, and in order to pay it Mr. Lingafelter in the same way credited the Building Association with \$1000 upon the books and charged himself upon the books of the bank with \$4000. At the same time Mr. Lingafelter had no money in the bank to his credit, and Mr. Stasel claimed that these transactions were fraudulent and void, and asked the court to reduce the amount of Mr. Webb's claim in the sum of \$14,000 to cover these two transactions. To this answer of the receiver of the bank, Mr. Webb claimed that the money had been actually paid out upon dividends to stockholders and that these credits having stood upon the books for two to three years, they could not now be disputed and set up several additional defenses by way of estoppel. The matter came on for trial before Judge Seward, who heard the case upon the evidence and rendered a decision this morning reducing the claim of the Building Association \$14,000, making its claim now about \$8,000. The effect of this decision will be if it is not taken up to a higher court and reversed, to reduce the liability of the bank in the sum of \$14,000 and will insure materially to the benefit of the depositors in the bank.

Kibler & Montgomery, attorneys for Mr. Webb, gave notice of appeal and also requested a separate finding of fact and law for the purpose of taking it to the Circuit court.

The referee in bankruptcy, Mr. Rogers, has resigned as referee, to take effect on the first of December, and he will probably before that time decide the question submitted to him about a month ago as to whether the mortgage given by Mr. Lingafelter to the Homestead Building and Savings company for \$50,000 is a valid preference and entitled to be paid out of the proceeds of sale of his property in preference to all other creditors. If the referee decides that the mortgage is not a preferred claim this will give to the receiver of the Newark Savings Bank company almost half of the proceeds of the sale of this property, which amounted to about \$15,000, but the decision of the referee upon that subject would not in any event be final, but an appeal could be taken to the United States court at Columbus upon his finding and could be taken from there to the Court of Appeals at Cincinnati before the matter is finally determined, so that it appears that the litigation involving the assets of these two institutions is nearing an end.

Mr. Stasel stated to the Advocate Tuesday that there are a number of other suits still pending in the court of Common Pleas which prevent a settlement of the bank's affairs, notably the suit to collect the \$50,000 bond and he further stated that these suits would be pushed to final determination as soon as possible in order to close up the affairs of the bank.

UNWRITTEN LAW TO BE DEFENSE OF HARRY THAW

YOUNG MILLIONAIRE WILL SEEK
TO JUSTIFY KILLING OF
STANFORD WHITE.

EMINENT LAWYER ENGAGED

It is Said Fee Thaw's Mother Will
Pay Attorney Delphin M. Del-
mar is \$100,000.

New York, Nov. 13.—Harry K. Thaw will seek to justify his killing of Stanford White and save himself from the electric chair on the "unwritten law."

For a fee said to be \$100,000 Delphin M. Delmar, the famous San Francisco lawyer, has been engaged to conduct the defense of the young Pittsburgh millionaire when he is brought to trial on December 3. Judge Delmar was engaged by Mrs. Wm. Thaw.

His power over a jury is wonderful and with the defense of White's killing resting on the rock of "unwritten law" the trial promises intense human interest. Judge Delmar is the man who placed Wm. J. Hearst in nomination for president at the St. Louis Democratic convention. He will give up his home in San Francisco and take a residence in New York.

After weeks of uncertainties the announcement that the "unwritten law" is to be the defense came as a startling sensation to the criminal bar.

One big question is being asked everywhere today. Can Thaw's counsel prove that Stanford White sought to resume relations with Evelyn Nesbit after her marriage to Thaw? Should it be developed that the architect forced his attentions on Mrs. Thaw the jury will have a question of moral code to decide and not one of law. The defense will admit the killing and seek to justify it. If the moral code is "higher" than the legal statutes in the minds of the jury, Harry Thaw will walk out of the Tombs a free man. If the strict letter of the law is followed Harry Thaw will go to the electric chair. Judge Delmar has had experience in "unwritten law." He was advisory counsel for Truxton Neale, of San Francisco, who shot and killed Frank Marriott, for publishing an alleged improper paragraph about Miss Marie Oge, who later became Beale's wife.

The "unwritten law" as Thaw's defense, will bring out the story of White's inner life. The Rialto and the artists' world was the Bohemia in which White lived and the stories of his merry eccentricities of entertainment are recounted in every cafe and studio. These tales of midnight and mornings will be told on the witness stand, but the very nature of the defense will bring out the story of Thaw's years of frivolity on Broadway after dark. Preparations for Thaw's defense were begun in earnest today.

CASTRO SINKING WITH NO HOPE FOR RECOVERY

Willemstad, Nov. 13.—President Castro of Venezuela, is steadily sinking, according to advices received from Caracas. He is now reported to be demented and the statement is generally believed. He is confined to his bed and no hope is entertained for his recovery.

SEVERAL ANARCHISTS ARE PUT UNDER ARREST

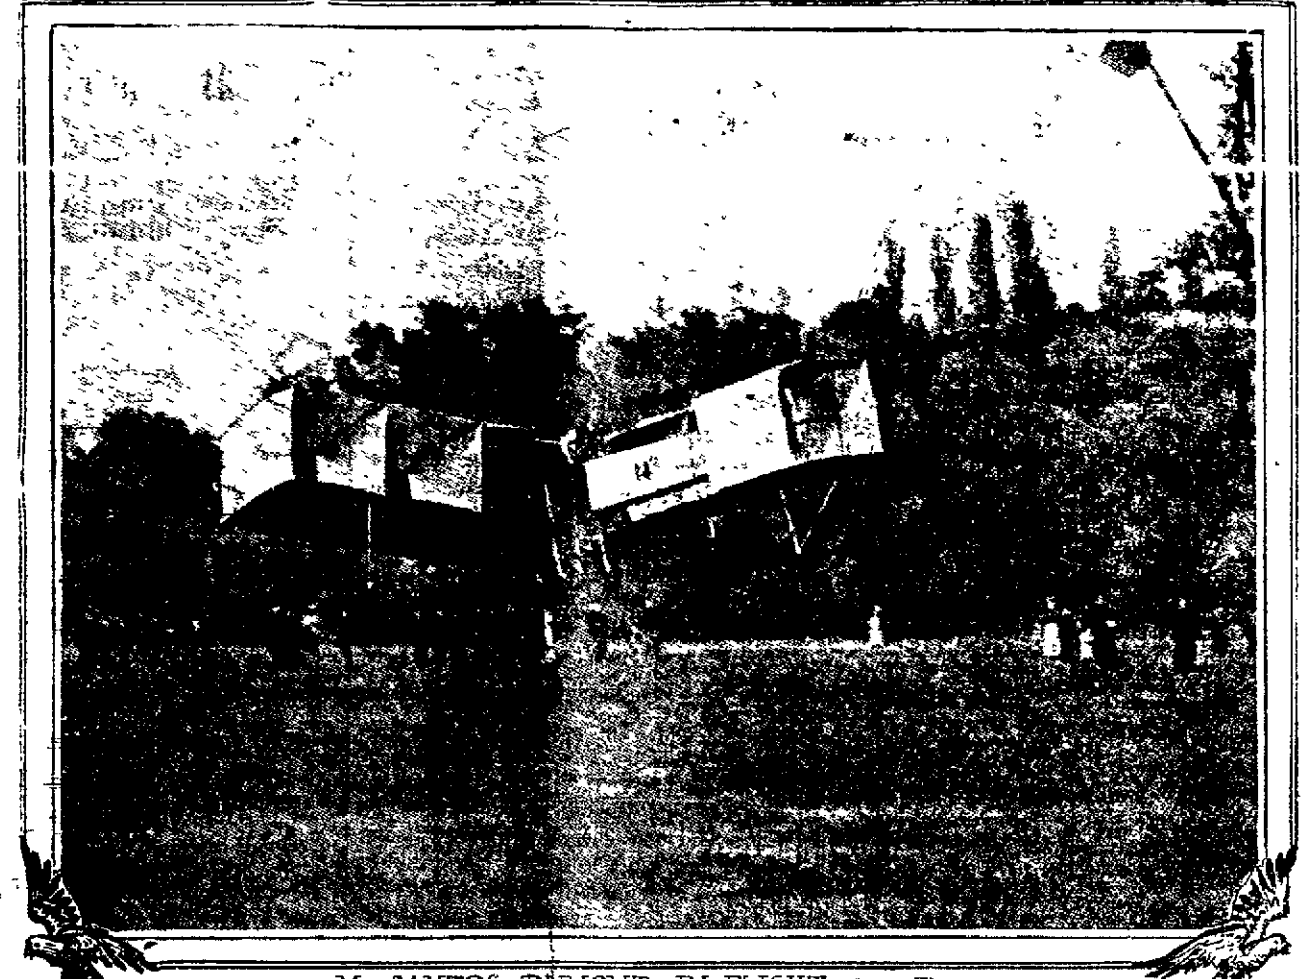

London, Nov. 13.—The arrest of a number of Paterson, N. J., anarchists at Naples where they had gone for the purpose of assassinating the King of Italy and Duke and Duchess of Aosta, is announced in a special dispatch just received here today.

PRESIDENT IS WELL

Washington, Nov. 13.—A wireless message from President Roosevelt sent last night at 8 o'clock, reports the Louisiana 696 miles from Colon, and all well.

At Carlisle, Pa., Clarence Igenitz, 29, shot his sweetheart, Mary Kutz, and committed suicide. Because they were first cousins Miss Kutz refused to marry him.

A MEMORABLE MINUTE IN THE HISTORY OF AERIAL NAVIGATION.

M. SANTOS DUMONT IN FLIGHT. M. Santos-Dumont, who had already won the Deutsch prize of \$20,000 with his dirigible balloon, also won the Archdeacon Cup for aeroplanes mounted on his original apparatus he made a flight of 60 meters (200 feet) at Bagatelle on October 23. The above photograph is the only one taken during this flight. It shows that the aeroplane did not rise to a very great height above the ground, only about two metres. This, however, was not the question, the great interest of the experiment being the demonstration that one can succeed in attaining level flight without the aid of a support lighter than air.

DOUSTER SUITS ARE FILED BY ELLIS

THEY ARE AIMED AT COMPANIES
CONTROLLED BY STANDARD
OIL MAGNATES.

Sequel to Findlay Trial—Action is
Commenced in Circuit Court
at Lima, Ohio.

Lima, O., Nov. 13.—In the circuit court here, suits were filed by the attorney general, Wade H. Ellis, against four subsidiary companies controlled by the Standard Oil company of New Jersey, to prevent the further operation of the alleged combination known as the "Standard Oil Trust." The companies named as defendants are the Ohio Oil company, the Solar Refining company, the Buckeye Pipe Line company and the Standard Oil company of Ohio. The petitions filed by Ellis allege that the Standard Oil company of New Jersey own and controls all the stock of these four companies, except an amount sufficient to maintain a directorate and a corporate existence in Ohio. It is further alleged that the control of these companies is exercised in restraint of trade and in contravention of the anti-trust laws of the state.

The petitions ask the court to oust the four companies from their assumed right to permit their stock to be controlled by the Standard Oil company of New Jersey, and that they be prevented from continuing their operations as auxiliaries of the so-called oil trust, and for such other relief as may be deemed proper under the laws of Ohio.

The suits are the outgrowth of the trial of the case against the Standard Oil company at Findlay, during which the alleged facts regarding the control of the subsidiary companies of the Standard Oil company were brought out.

Collided With Work Train.

Watertown, N. Y., Nov. 13.—An eastbound freight train on the Rome, Watertown and Ogdensburg division of the New York Central railroad collided with a work train about two miles south of this city. On the work train was a gang of Italian workmen, four of whom were injured but none fatally. The locomotive and several cars of the work train were badly smashed and the wreck caught fire.

FATAL DUEL

Shooting Affray in Which Largest
Planter in Georgia County Was
Fatally Injured.

Augusta, Ga., Nov. 13.—A shooting affray occurred at Kitterells, Johnson county, in which Herschel Tarbatton, the largest planter in the county, was probably fatally wounded by a man named Tyre, a prominent lumber man, with whom he had a dispute about a timber line. Tarbatton while riding along the road was shot by Tyre, receiving a terrible wound in the face, but drew a revolver and shot Tyre in the abdomen, death ensuing a few hours later.

Ft. Worth, Tex.—Secretary Taft will arrive here this evening from Ft. Sill, en route to Ft. Houston.

DUMONT'S AIRSHIP

Aeronaut Makes Another Series of
Experiments With His Perfect-
ed Aeroplane.

Paris, Nov. 13.—M. Santos Dumont made another series of experiments with his perfected aeroplane in the Bois de Boulogne. He made two flights of between five and six seconds, covering between 50 and 60 metres each time. Later, M. Santos Dumont met with better success, and was only prevented by the immense crowds which had surged on the field from accomplishing a successful flight. He skimmed along at a height of 15 feet, and at a speed of 30 miles per hour for a distance of 215 metres when fear that his whirling propeller would strike the cheering people, forced him to descend. The right wing of his machine was slightly damaged.

THUGS ARE BUSY IN PITTSBURG, PA.

Pittsburg, Pa., Nov. 13.—Embodied by the apparent helplessness of the police and detective forces of the city, the highwaymen and burglars that have terrorized this city for the past ten days have apparently extended their operations into broad daylight for at one of the most crowded spots in the heart of the city, Mrs. A. G. Boykin was assaulted and robbed by two men, who made their escape. In the meantime trade and business organizations are holding indignation meetings and drawing up petitions to the mayor and the police officials. The murder of Harry Smith in the East End by burglars has aroused that section.

GENERAL SHAFTER ILL SEVEN DAYS

While Returning From Poils Tuesday
Major General Contracted Se-
vere Chill and Grip.

Bakefield, Cal., Nov. 13.—Major General William Rufus Shafter, U. S. A., retired, who died Monday afternoon at the ranch of Captain W. H. McKitterick, his son-in-law, 29 miles south of this city, was ill seven days. While returning from the polls, last Tuesday, General Shafter contracted a severe chill, which augmented a slight disposition and necessitated confinement to his bed. Intestinal obstruction was discovered, but it was determined that this was a secondary affliction brought on by an acute attack of pneumonia. Wednesday and Thursday no improvement was noticed and Friday afternoon Dr. I. W. Thorne of San Francisco was dispatched to the bed side of the general. Dr. Thorne arrived early Saturday morning. A slight rally was detected, and relatives and physicians were extremely hopeful, but the change was short lived, a sinking spell seizing the veteran. Through it all the veteran bore up bravely. Always cheerful and hopeful, his mind clear, and cognizant of his critical condition, the patient remained conscious until 9 o'clock Monday. The remains of General Shafter will be interred in the Post cemetery at San Francisco.

THREE VACANCIES RAISE QUESTION

CAN SUCCESSORS BE CHOSEN IN
OHIO AT NEXT FALL'S
ELECTION?

Attorney General in Offhand Opinion
Says They Can—Other Puzzling
Problems.

Columbus, O., Nov. 13.—The election of Representative W. A. Ashbrook of Licking county, to Congress, the resignation of Representative Baldwin and the election of Speaker Thompson to the secretaryship of state will create three vacancies. The constitution provides that these shall be filled as directed by law, and this directs a special election to be called for this purpose by the governor who has no power to appoint successors ad interim.

The question has been raised whether these elections can be held next year because of the recent constitutional change in the mode of electing state and municipal officers. This new constitutional requirement provides that all state and county officers shall be chosen in the even numbered years and directs that all elections for all other officials shall be held in the odd numbered years. Being new, no construction has ever been put upon it. An offhand opinion of the attorney general's department is to the effect that such a special election would not be repugnant to the constitution.

There is still another question as to whether the governor is forced to leave his seat for these elections. Two years ago while there was a vacancy in the Thirteenth senatorial district and during the election both parties and nominated candidates Governor Fitch refused to call the election, although the language of the statute seems clearly mandatory. The word "shall" being used. It appeared that at that time Senator Judson of Erie, whose resignation created the vacancy, had drawn a year's salary in advance and the election of a successor would have raised his right as well as those of the whole membership of the General Assembly to the money. Expediency is supposed to have governed the chief executive in assuming his negative attitude.

UNDervaluation

Of Gems Alleged by Treasury Department—Report Unfavorable to
Mondell.

Washington, Nov. 13.—An investigation just concluded by the treasury department of the excessive valuation of the gemstones in this city on charges of undervaluation of precious stones has resulted in a report unfavorable to General W. Mondell, the official in charge, according to The Tribune. The investigation of this branch of the customs service was undertaken in September by special agents at the direction of Secretary Shaw, following complaints made to Washington regarding the methods employed in the valuation of gems, received at the port.

J. R. ZIMMERMAN PLEADS GUILTY GOES TO PRISON

WOOSTER BANKER MUST SERVE
TWO YEARS AND PAY FINE
OF \$10,000.

MAN WEPT WHEN SENTENCED

Zimmerman Indicted for Aiding ex-
Congressman Olliger in Wreck-
ing Wooster Bank.

Cleveland, O., Nov. 12.—J. R. Zimmerman, formerly director of the Wooster National bank, was sentenced in United States court today to two years in the penitentiary and was fined \$10,000. He wept when sentenced. Zimmerman pleaded guilty on one of the 23 counts against him, and at the suggestion of the district attorney the remaining 27 counts were nolleed. The count upon which sentence was imposed charges Zimmerman with aiding and abetting Louis P. Olliger, president of the bank, in the embezzlement of \$413,121. The sentence and the fine imposed were the limit allowed by law.

DEAD MAN FOUND

No Marks on Body Save Scratches on
Legs—Believed to be Charles
Isaacson, of Chicago.

Jackson, Tenn., Nov. 13.—The nude body of a dead man was found near Highland Park, this city. A new suit of clothes was found near him and no marks of violence are visible on the body save some scratches on his legs, which were probably caused by his coming in contact with a wire fence. From papers in his pockets it appears his name is Charles Isaacson, and that he was a horse buyer from Chicago. He was 50 years old.

UNCLE SAM GETS AFTER STANDARD OIL

Washington, Nov. 13.—There is good reason to believe that the government has decided to institute proceedings against the Standard Oil company under the Sherman anti-trust act, with a view of obtaining an order of the court dissolving the company as it now exists and restoring to each of the 75 or 80 constituent companies its proportionate share of the stock and also compelling the observance of the law in prohibiting them from entering into any contract agreement or understanding with each other with a view to maintaining prices on oil.

Disputed Indian Territory Land.
Washington, Nov. 13.—In the supreme court of the United States Solicitor General Hoyt filed a motion on behalf of the government to dismiss the case of the state of Kansas versus the United States for possession of the Indian territory land claimed to have been granted to the Missouri Kansas and Texas railroad, estimated to be worth upwards of \$10,000,000. The motion was based on the contention that the state of Kansas has no substantial interest in the case.

HE SACRIFICES TITLE, POSITION, WEALTH FOR LOVE

Berlin, Nov. 13.—Sacrificing title, position and an income of \$1,250,000 a year, for love Prince Eberwyn of Benheim and Steinfurt, will marry next week Fanny Koch, daughter of the mayor of a provincial town. Finding that he could not persuade him to give up his sweetheart, Eberwyn's family were forced to renounce his birthright, and he was also compelled to resign his lieutenantcy in the Prussian bodyguard.

OFFICERS SUSPICIOUS.

De'troit, Nov. 13.—The Shawness county officials are suspicious that the Seelyes did not commit suicide. They hint that some one interested in throwing off suspicion poisoned them and that there will be further developments in the Seelye murder. They point out that the doctor working on the supposed suicide of Seelye is suspicious.

COMMISSION IS TO INVESTIGATE HARRIMAN ROADS

NOW BELIEVED ACTION WILL BE
TAKEN AT UNION PACIFIC
HEADQUARTERS.

BIG MEN WILL BE WITNESSES

In Northern Securities Case Informa-
tion Developed That Startled
the Financial World.

Washington, Nov. 12.—When the interstate commerce commission begins an investigation of the Harriman railroads, probably it will proceed under a resolution similar to that which controlled its action in the Northern Securities inquiry. It is now believed that the investigation will be made at Omaha, headquarters of the Union Pacific. E. L. Harriman, H. L. Harahan, president of the Illinois Central, Stuyvesant Fish, the road's recently deposed president, Cornelius Vanderbilt and John J. Astor will be among the witnesses. In the Northern Securities inquiry, W. A. Day acted for the commission and his examination of Harriman and James J. Hill brought out information that startled the financial world. Through the testimony of Harriman it was shown that the Oregon Short Line, with a capital stock of only \$27,000,000, was able to buy \$78,000,000 of Northern Pacific stock. The Oregon Short Line is still the holding company for most of the Harriman railroad properties and its connection with the acquired control of the Illinois Central is what the Interstate Commission will try to ascertain.

PRACTICE MARCHES TAKEN IN CUBA

Americans Equipped With Tent and
Rations Start on a Three
Weeks' Trip.

Havana, Nov. 13.—The series of practice marches throughout the island by American troops began with the departure from Camp Columbia of the Fourteenth and Seventeenth mountain batteries for Pinar del Rio and the Eighteenth field battery for Matanzas. The men carry full rations and their tents. They are to proceed leisurely, studying the roads and strategic positions on the way. They will be gone about three weeks. These practice marches are hailed with satisfaction by both officers and men as a relief to the monotony of duty in camp and garrison.

CONCRETE CANAL

Across Isthmus of Panama—Plan
Submitted to President by Col.
Alex Hogeland.

Louisville, Ky., Nov. 13.—A plan for a concrete maritime highway across the isthmus of Panama to be used as a substitute for the ditch as at present projected, has been submitted to President Roosevelt by Colonel Alexander Hogeland, known throughout the United States as the "Father of the Curfew." The plan contemplates the building of a concrete highway with the bottom 30 feet above sea level and which will resemble a viaduct in passing over the low portions of the isthmus. The advantage claimed for it are that it will allow the rivers to be passed under it thereby obviating the dangers resulting from freshets, doing away with the necessity for impounding a vast quantity of water from the Chagres and other rivers in the artificial lake by the Gatun dam and finally avoiding the necessity for an immense annual expense for dredging.

PROF. STEINER SAYS NATURALIZATION PAPERS CAN BE BOUGHT FOR \$10

London, Nov. 13.—Prof. Steiner of Ginnell College, Iowa, claims that newly arriving European immigrants may secure citizenship papers upon landing from Ellis Island at \$10 apiece. The professor asserts that he discovered himself as an immigrant and was offered a great citizenship bargain by political leaders.

CARTED STOLEN GOODS AWAY IN A DRAV

Cincinnati, Nov. 13.—The auctioneers of Ezekiel & Berchman were entered by burglars early this morning and \$5,000 worth of valuable rugs, carpets and oriental goods were stolen. The goods were carted off in a dray.

Warehouses Blown Up.

Louisville, Ky., Nov. 13.—The warehouses of the American Snuff company at Eddyville, Princeton and Fredonia, Ky., were wrecked by dynamite. At Eddyville citizens were awakened by the shock of the explosion, which shattered windows over a wide radius. Bloodhounds were secured and followed the trail of the wreckers 10 miles into Caldwell county. Several months ago trust warehouses in the southern part of Kentucky were dynamited and growers who sold tobacco to the trust received warning messages from the "night riders."

DEAD IN WRECK ARE FORTY SEVEN

BODIES INCINERATED IN FIRE THAT FOLLOWED COLLISION ON THE B. & O.

Number of 38 Injured May Die—Employee's Mistake Caused the Wreck of Passenger.

(Continued.)

Chicago, Nov. 13.—More victims of the B. & O. wreck at Woodville, Ind., are dying in Chicago hospitals today.

The present list of 49 dead will be swelled by a number of new names before night.

Of the 128 victims taken to this hospital, only 50 were able to leave during the night. Many of the 73 remaining are in such condition that their lives are despaired of.

Coroner Carson of Valparaiso, is fixing the blame for the wreck.

"It seems to be up to the crew of the first section of the immigrant train to explain why that accident occurred," said the coroner today. Another matter he is investigating is the report that the doors of several coaches on the immigrant special were locked.

Officials of the B. & O. place the blame for the disaster on their employees, saying the wreck was caused by a clear violation of orders.

The casualties in the wreck of B. & O. train No. 47 at Woodville, Ind., Monday, are much higher than indicated in the earlier dispatches from the scene. Forty-seven people were killed and 38 were injured when the second section, carrying immigrants, collided with a freight. There were 165 passengers on the train. Forty-five of the bodies were consumed in the flames. The wreck was caused by a blunder of some employee but just whose blame it is has not been determined. The passenger train was loaded with Russian Jews, Serbians and Poles bound for the Northwest.

The freight train, in charge of Engineer Burke and Conductor Moste, started eastward as soon as the first section of the immigrant train had passed the switch at Babcock. A light snow was falling which increased the darkness of the morning and as the freight train was rounding a sharp curve just west of Woodville, the second section of the immigrant train came in sight a short distance away, tearing toward Chicago at the rate of 40 miles an hour. The two trains came together.

With Unslackened Speed, and in the crash six passenger coaches and several freight cars were knocked into kindlingwood and together with the locomotives went rolling down the 10-foot embankment.

Fire broke out almost immediately in the wreckage and although a number of the injured were saved by the desperate efforts of the train crew and surviving passengers, the greater part of those who were pinned down in the debris were burned to death. The flames spread through the wreckage so rapidly that it was impossible to save a number of people who were but slightly hurt, but were held fast by timbers that weighted them down. These were burned in plain sight of the throng which stood around the scene of the disaster utterly unable to lend assistance in any way. The fire continued until all of the shattered cars were entirely consumed and of the 47 persons whose death followed the collision 45 were burned to ashes. Relief trains were at once sent out from South Chicago and from Valparaiso, Ind., with every available physician and every possible aid was given to the injured. A large number of the relatives of passengers on the ill-fated train were in Chicago awaiting the arrival, and when the report was received that many had been killed and injured in a wreck, the scenes around the Baltimore and Ohio station were harrowing.

SEARCHING WRECKAGE.

Valparaiso, Ind., Nov. 13.—Many bodies have not yet been recovered and the search for the incinerated corpses in the wreckage which lines the B. & O. at Woodville was resumed today. The bodies will be buried near the scene of the wreck unless claimed by relatives. Identification is impossible in dozens of cases, owing to the fact that the bodies are badly burned. The engineer of the freight train declares he saw no green lights displayed by the first train and heard no blasts of a whistle. It is said the green lights on the first section had gone out. The engineer of the wrecked train declares he had no order regarding the freight train though he knew it was in the vicinity.

Charges Against Mexicans.

El Paso, Texas, Nov. 13.—The cases of the alleged Mexican revolutionists under arrest here upon complaint of the Mexican government charging them with inciting a revolution, were taken up by United States Commissioner Howe on preliminary trial. A surprise was sprung by the counsel for the Mexican government when the charge of murder was made also. The court was notified that application for extradition had been made upon the murder charges. The accused are Antonio Villareal, the alleged head of the St. Louis, Mo., junta, and Lauro Aguirre and Ramon Cano, supposed to be associates of Villareal.

Light as Driven Snow TOASTED CORN FLAKES

Light Crisp Flakes of Toasted Corn that Melt in Your Mouth

You will never care for any of the many other Breakfast Foods after you once taste Toasted Corn Flakes; you will never find a cereal food that is more nutritious. Toasted Corn Flakes have a delicious flavor distinctly their own—and it's a flavor you will enjoy. They are made entirely of honest, wholesome corn—and that the very best. Thoroughly and scientifically cooked, rolled into filmy flakes and then roasted to a tempting golden brown.

Toasted Corn Flakes agree perfectly with the most delicate stomach. They satisfy completely the most hearty appetite. That their value as a body building food is the highest is best proven by the fact that they are in daily use at the famous Battle Creek Sanitarium, the greatest dietetic and health institution in the world. As a change for the better try Toasted Corn Flakes with milk, cream or fruit juices tomorrow morning.

BIG SHIPMENTS OF STOVES FROM WEHRLE PLANT

For the past two weeks the Wehrle stove company has been shipping on an average, forty car loads of stoves daily. Each car holds from 40 to 50 stoves, according to the size. Taking an average of fifty to a car, it will be seen that the company is shipping from Newark 2,000 stoves every day, or in the past two weeks 24,000 stoves have left the local plant. The shipping department is working day and night.

While the company has nothing to say as to future operations, it is natural to infer that with the present rate of shipments the force will be increased at the plant as the large amount of surplus stock is being rapidly diminished.

HUKILL LOCKED UP FOR THEFT

WENT TO PRISON WITH CONSTABLE ROBES AND BLANKETS.

His Suit Worked as a "Boomerang" and He Will Be Held for Investigation.

David M. Hukill, of carpenter tools fame, is again in jail. This time the charge opposite David's name is "investigation." The arrest of the man resulted rather peculiarly and was a sort of "boomerang" operated by himself.

When the officers searched Hukill's premises at the time the carpenter's tools were discovered, they found a number of blankets and robes. These were carried to prison and last Saturday two were identified.

David seems to have lost track of this fact and Tuesday he took to the court of Justice Nash and caused a writ of replevin to be issued to recover possession of the robes which the police alleged were stolen.

In company with Constable Robert Barnes, Hukill went to the prison.

"Chief, we have some papers here to recover some robes you took from Hukill's home," said the constable.

"Yes, sir," meekly responded the chief.

"Well, we want the robes," continued the constable.

"All right," said the chief, and turning to Turnkey McCrum he said, "McCrum, bring out the two blankets which were identified."

The blankets were brought out and then the chief's orders followed in rapid succession.

"McCrum, search this man, lock him up in a cell, charge him with investigation, and phone to those people to come to town right away and file affidavits against him."

Hukill gasped with astonishment. Hukill shelled out the contents of his pockets. He had a pocket knife, a coin pouch, a watch with a leather chain. But that was not all. He had about \$118.30 in cold cash. He gave some dollars to the constable about getting his bondsman and his attorney, and about notifying his wife as to his latest stopping place.

PRINCE VON BUELOW APPEARS TODAY IN THE REICHSTAG

Berlin, Nov. 13.—Resolutions calling for a tariff with the United States upon the expiration of the present agreement on June 30 next will be introduced in the Reichstag shortly.

The consideration of the commercial relations between the two countries will be the most important international subject of the session which opened today.

Prince Von Buelow, the chancellor, today made his first appearance in the Reichstag since he was attacked with paralysis on the floor last April. He looked much older but otherwise showed no traces of the stroke. His reappearance was the sensation of the day.

The choir of the Christian Union Chapel on Pine street will give an entertainment Thursday night. It will consist of songs and readings. The last number on the program will be rendered by Gideon's Band. Some parts of the costumes worn by members of the band are over 200 years old.

BELT-ERINGTON.

WARSHIPS SAIL FOR TANGIER

English and French to Engage In a Joint Demonstration.

WOULD OVERAWE THE SULTAN

Reported to be Serious—Foreigners Assaulted and Appeals of Envoys Ignored—Agitation Among Tribesmen on the Increase.

Gibraltar, Nov. 13.—The British Atlantic fleet is to leave here for Tangier. In conjunction with a French fleet of warships it will engage in a demonstration in Moorish waters. The British warships were provisioned on very short notice.

During the last few months conditions in the interior of Morocco have constantly grown worse. Foreigners have been assaulted and outraged, towns have been raided, foreign vessels on the coast have been fired upon and while the diplomatic representatives of the powers concerned have protested to the sultan, their demands have been received with slight attention.

The agitation is reported to be on the increase and Spain has found it necessary to send a warship to the Moroccan coast to remove Spanish subjects. Insurgent tribesmen have been active in creating disorders among themselves and the forces of the sultan and those under Bu Hanara, the pretender to the throne, have come in conflict in recent months with victory first on one side and then on the other. The diplomats at Tangier have protested more than once to the Moroccan authorities against the lack of protection for foreigners, but no improvement has been forthcoming. France already has one or two cruisers in Moroccan waters.

The American mission to Fez under the American minister to Morocco, Mr. Gummere, is at the capital for the purpose among other things of obtaining satisfactory assurance for the safety of Americans in Morocco, as well as indemnity for outrages committed in Morocco upon persons under American protection.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpelide.

Did you ever see a man trying to wash himself without soap or water? If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and prevent hair loss by feeding the scalp with cheap, greasy, and irritating substances which form the principal ingredients of most so-called "hair" preparations.

Newbro's Herpelide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c in stamps for sample to The Herpelide Co., Detroit, Mich.

Hired Prisoners FROM STONE PILE

BUT EMPLOYER GOT DRUNK AND LEFT MEN ON A T. & O. C. TRAIN.

Without Money to Pay Fare—Were Put Off in the Country Near Alexandria.

I. C. Darnell of Utica, a contractor, who is putting up a building for the village in Knox county has solved the problem of an employment bureau. Like other contractors, Mr. Darnell has experienced some difficulty in getting laborers to work on the job. On election day Darnell was in Newark and he has occasion to remember it. He was one of the two men who were mixed up in the use of the pig from the election booth in the North End and while in the city prison made the acquaintance of a number of the prisoners who were incarcerated there for being drunk.

Sunday, Darnell returned to town, armed by Mayor McCleery and put a clever proposition to the Mayor. He promised to give work to all the unfortunate at the prison who were wanting employment and who were anxious to get out.

So the Mayor and the contractor went to the city prison and looked the prisoners over. Five of them were selected for the trip to Utica. All were serving time for being drunk and were glad to get away from that stone pile.

The bunch selected was William Robertson, Sam Beckley, Edw. Allen, William George and Edward Allen. At 4 o'clock, the contractor with his new laborers started for Utica. When they boarded the train at the village of C. B. the contractor was not there.

CITY GAS PLANT OFFERED FOR LEASE

Hamilton, O., Nov. 13.—The city council has advertised for bids for the leasing of the city gas plant. Proposals from the Ohio Fuel Supply company (natural gas) and the Hamilton city gas plant are awaiting consideration.

The city plant, which was running in opposition to a private plant, has been an unprofitable enterprise. Last winter the city plant was losing money at the rate of \$600 a week while the private plant maintained itself and furnished gas to consumers at 10c per cubic foot, while the city plant was losing \$2.00 per cubic foot.

Now the city plant is up for sale, and in this regard has failed to rival the private plant.

New Mission Established.

The Newark City Mission has opened on South Fourth street and services are now being held every evening. Rev. J. A. Bolton has the place in charge as superintendent. H. W. Sanderson, an evangelist from Dayton, has been engaged to preach and will conduct services every evening during the week.

Reorganized Buckeye Band.

The reorganized Buckeye band has announced a free concert to be given in the near future when a number of additional musicians will appear with the organization. At its last rehearsal there were 35 of the "boys" present. The new band room on South Third street has been furnished and papered and the old Buckeye is preparing to enter the field right, and furnish some high class music with the popular.

Morning Fire Alarm.

An alarm of fire at 4:30 o'clock Tuesday morning called the Central and North End fire departments to the residence occupied by Stephen Mulliken on Sycamore street, which is owned by the American Real Estate Company. When the firemen arrived on the scene the fire had gained a good start, and the roof was blazing. After hard work the fire was finally put out with the aid of the extinguishers. The damage will amount to about \$150, which is covered by insurance. The fire was caused by a defective stove pipe.

Still Flowing Gas.

Mr. Wm. McFarland, the gas and pump man, of Franklin's addition, is engaged in piping one of the abandoned gas wells on the Vogelmeier property, south of the South Fork of Licking river and east of the German street bridge. Pipe will be laid across the creek to the dwellings on South second street built by the late Mr. Fred Vogelmeier where fuel will be utilized from a supposed dry well. There is plenty of gas for the purpose, in fact more than can be used, and relief valves will be put in. The gas company surrendered its lease and the Vogelmeier estate profits thereby. An examination of other wells should be made and this valuable fuel used instead of being allowed to waste.

Thrown From Buggy.

Elmer Wiseman, a farmer residing 12 miles south of the city, while driving a team of horses along the south side of the public square Monday afternoon, met with an accident which caused him to barely escape serious injury. One of the horses slipped on one of the rails of the car track and fell under the other, knocking its feet from under it. The sudden throwing of both horses upset the single seated buggy to which they were hitched, throwing Mr. Wiseman out of his carriage with

THE CHARM OF FRILLS.

There are so many occasions that the separate blouse fills to perfection that one can hardly have too many of these effective little pieces in their wardrobe. With the continued liking for the coat and skirt suit, the blouse of harmonizing or contrasting color, and preferably of material as soft and sheer as the purse will allow. Velvet and velveteen costumes are among the more favored of the season's modes, and with either of those there is permissible a range of color and material that few other fabrics admit. Worn with a chiffon or velveteen of fast dye black, the charming little blouse of the illustration shows a sedo silk in a faint saffron shade of yellow, on which a white silk braid and white crochot buttons make for a pleasing contrast. The neck is finished in the fashionable guimpe style, a sheer tulle be-ling stirred to form both collar and guimpe. The waist is attached in a simple style, a draped plastron between the surplice folds offering a novel idea. The sleeve is fashioned in a double puff, with fascinating frills separating each, and the shoulder line is effectively managed with a flounce, effect that falls softly over the puffs.

INHERITANCE TAX

Among the Measures to Be Advocated by the President.

Washington, Nov. 12.—A tax upon inheritances, government supervision of all corporations engaged in interstate commerce, and a divorce law will constitute the important recommendations in President Roosevelt's message to congress, which meets on December 14. Before leaving for Panama the president completed the draft of his message, which has been printed. The president places the greatest stress upon the importance of a federal check on the growth of great fortunes in this country and he has been assured by eminent jurists that inheritance legislation is within the power of congress.

O-P FRANCHISE IS NOT FOR SALE

STOCKHOLBER TELLS ZANESVILLE PEOPLE THAT ITS PRICE IS \$6,000.

People There Want a Cheap Franchise and Have \$1,500 to Put Up For It.

The sport writer in the Times Recorder Tuesday morning occupied a lot of space telling about a conversation between a local stockholder in the baseball company and Enoch Somers of umpire fame. Enoch wanted an earful of information about the sale of the Newark franchise. He was told that Zanesville could have the franchise if they could put up the price which was placed at \$6,000.

The Zanesville man goes on to say that Zanesville people think \$1,500 a great plenty for an O. P. league franchise. It is possible that \$1,500 is all that a franchise is worth in Zanesville, especially when it is supported by a cheap team such as they had last season. No doubt that such a franchise would be high at \$1,500. The Newark franchise may not be worth \$6,000. That is probably the maximum price set by the local company. However, the franchise in Newark proved itself to be worth more than the Zanesville franchise, because it remained with Newark during the entire season, and at least supported the team well at the end of the season.

The Zanesville sports are of the "tin horn" class. They are hard losers and if they can not have the franchise, they are not likely to get a look in. They may buy the Mansfield franchise but they certainly can not get a berth in this league at the price they name, \$1,500.

The Newark team is worth that amount alone. Two of the players have been drafted and for these the local club will receive \$600. Others will no doubt be copped out before the season closes. Newark has received offers for Schweitzer, Snyder and Davis. The prizes named for these players would more than equal the \$1,500 which the Zanesville organization wants to put up for a team.

Newark will be in the O. P. league next year. A Cleveland sport writer in commenting on the possibility of kicking out Newark, Marion and Lancaster, says that it can not be done as long as they want to stay in the league. Neither can the other teams pull out and leave the little towns to hold the bag. The National agreement takes care of that.

Guaranteed Liquor Cure.

We would not under any circumstances endorse a remedy for the cure of the drink habit until we had absolutely satisfied ourselves that it did all claimed for it. Orrine is the only cure for the drink habit that we know of and the only one that we ever knew of that had enough merit to be sold under a positive guarantee to refund the money if it does not cure. It has stood the test of years of use and we know of many whom it has cured of the drink habit.

The guarantee given with each package thoroughly protects the buyer. Orrine is in two forms: No. 1, for the secret use and No. 2, for those who wish to be cured. \$1 a box. Mail orders filled. The Orrine Co., Washington, D. C., or Hall's Drug Store.

EDDIE NEHLS ELIGIBLE TO PLAY ON NEWARK HIGH SCHOOL ELEVEN

An unsophisticated youth in Zanesville who condescends to devote a few spare moments writing football dope for the Sunday News, has figured it all out just why Zanesville doesn't play Newark High. In passing a decision from this end of the line on the dope handed out by our friends, there is not other conclusion except that the Mud City youths are afraid to tackle the local school after the showing they made against their opponents thus far.

The Zanesville scribe states that "Tabby" Nehls has not voted, yet it is because he has neglected his duty as a citizen. The writer also says that Conley and Upson are ringers, and for that reason the Zanesville school has decided not to play them. There is absolutely no doubt about the eligibility of Upson and Conley. Both are legitimate students and stand high in their classes.

Nehls has been picked out to class as a ringer because he is almost a six footer and weighs close to 190 pounds. Nehls is not 21 years old yet. In fact, he will not be 20 until the 16th day of February, next year. More than that he is carrying five studies in the school where other members of his class are allowed to carry but four. Nehls is also possessed of a good standing in his classes, carrying an average of 97 percent in the five studies. It is true that Nehls tried out on the Denison team, but an illness which came on him shortly after the season opened, made it necessary for him to withdraw from the team, and as the freshmen rules this year ruled him off the team he decided to take a preparatory course in the local high school to prepare him for entering O. M. U.

It is a direct insult to the faculty of the Newark High school to intimate that they are allowing ineligible players to compete in the football games. It is necessary before each game for the faculty representative of the High school to submit to the opposing school a list of the team, which is certified to contain none but eligible players.

The Newark team this year is fast, and we cannot blame the Mud City school for fearing to meet them. If the light team of two years ago could defeat Zanesville by the enormous

score of 71 to 0, the team this year, everything being equal, could score 90 or 100 points on them, so fast is the team and so stubborn is the defense.

If the writer on the Zanesville paper has one earmark of a gentleman he will at least ask his own pardon for accusing the faculty of the Newark High school of such a "dishonest deed as certifying to the eligibility of a player whose grades are low or whose record would bar him from the interscholastic athletic events.

POLO SEASON OPENED HERE MONDAY NIGHT

GOOD CROWD WITNESSED THE OPENING GAME AT THE PALACE RINK.

Regulars Won Game by One Point—League Season Will Open Week From Wednesday.

Fifty or six hundred people witnessed the polo game Monday night between two teams chosen from the squad of players being coached by George Heath at the Palace rink in East Newark. The Regulars won an exciting game from the Reserves, it being necessary to play an extra period to decide the contest.

It is doubtful if fifty out of the five hundred who saw the game, ever saw roller polo before. Consequently there was a difference of opinion as to whether the game was a good one or not, or whether the game is as good as baseball, football or other sports with which Newark people are more or less familiar.

The game is exciting. There is no doubt about that. There is a certain element of danger about the playing of the game which gives it the place it occupies among the winter sports of the country.

By the box score it will be noticed that there are five men on each side, made up of first and second rushes, the center, the half back and the goal tender. The points recorded in the box score are rushes, goals, fouls and stops. It so happens that only the goal tender make the stop and only the first and second rushes can score a rush.

In Monday night's game the players started off with a snap. Referee Daken spotted the ball in the middle of the floor and like the matadors in a bull fight the rushes made a dash for the spot. Seemingly they arrived at the same time, but there was no severe collision.

The ball was soon in-play and after 6-12 minutes of skating and slashing with the polo clubs the sphere was caged and somebody shouted.

Probably the cleverest play of the game was made by Heath, who was playing first rush for the Reserves. He took a swat at the ball as it rested on the spot in the middle of the floor and sent it with unerring aim straight into the cage. This is a feat which occurs hardly with more frequency in a polo game than a triple play in a baseball game.

Barker, a Michigan man, playing first rush for the Regulars, was one of the shining lights in the game. He seemed to be able to coax the ball around the floor wherever he wanted it, and used his feet successfully in blocking the efforts of his opponents to drive the ball into the cage. The score:

A GOOD AFTER DINNER CIGAR.

Collins & Son Say the Chicos Just Fill the Bill.

The time to enjoy a real good cigar is after a good dinner. "There is no better time to test the quality of Wadsworth Bros' Chicos than to light one right after a hearty meal," says Mr. Collins of Collins & Son's drug store. It just fills the bill for a good after dinner cigar.

It is clear, long Havana filler of superior quality; and the size is exactly right.

Collins & Son say that they sold more Chicos since they introduced this brand in Newark than they ever sold before of any brand in four times as long. This shows how well it pleases the smoker who enjoys a good cigar.

Considering its superior quality the price at which it sells, five cents straight, is a surprise.

Step into Collins & Son's today Mr. Smoker, and get a pocket full of Wadsworth Bros' Chicos. N6-8-13

FLEMING-DODSON.

Miss Amy Dodson, who until recently lived in Newark, will be married Thursday evening at the Hotel Lincoln, Columbus, to Mr. Brooks Fleming, son of ex-Governor Fleming of Fairmount, W. Va.

From Newark where the bride-elect has many relatives the following guests will go to Columbus on the afternoon of Thursday: Hon. and Mrs. Edward Kibler, Dorothy, Edward and Charles Kibler, Mr. and Mrs. Linley Boyd Wilson, Miss Louise Jones, Mr. Fulton Van Voorhis, Mr. John Hisslop, Miss Bertha Fulton, Mr. and Mrs. W. W. Maholin and Miss Louise Maholin. The groom's sister, Mrs. Chas. E. Ward, and Mr. Ward of Charleston, W. Va., will also be guests.

Mrs. McKinley of Philadelphia, will be the guest of Miss Dodson's mother, Mrs. Orson Dudley Dryer, 1281 Bryden Road.

The groom, who is a Princeton graduate, also attended law school at Morgantown. Miss Dodson is a former pupil of Denison university at Granville and the Philadelphia academy of fine arts.

The marriage ceremony will be attended by the out of town guests, and to the reception, which will be held at 9 o'clock, at Hotel Lincoln, where the wedding will take place, 75 friends have been invited.

The bride and groom will take an extended wedding trip, going South first, then to New York, and by water to visit Miss Dodson's uncle, Mr. Benjamin Wilson, at Fishkill-on-the-Hudson.

They will live in Fairmount where the groom has extensive coal interests. Many of the bride-elect's relatives live in the vicinity of Fairmount and it was on a visit to friends there that she first met her future husband.

Mr. Fleming arrived in Columbus Tuesday and is stopping at the Hartman.

PARKER-SAVIERS.

(Special to the Advocate.)

Kirkersville, O., Nov. 12.—Mr. Harry Parker of Columbus, and Miss Grace Saviers of Kirkersville, were united in marriage November 7 by Rev. John R. Tibbles, pastor of the Hebron Methodist Episcopal church.

The wedding was at high noon at the home of the bride's parents, Mr. and Mrs. G. W. Saviers in Kirkersville, and was beautiful and interesting in all its appointments. The complete ritual of the Methodist Episcopal church was used, and the ceremony was witnessed by a goodly number of invited guests who were relatives of the bride and groom. An elaborate dinner in three courses was tastefully served and enjoyed by all. The bride was the recipient of many beautiful and useful presents. The young couple have the best wishes of many friends.

Rev. Solomon Lindsey, S. S., one of the best known Methodist ministers in Ohio, died at the home of his daughter at Marysville, O.

RISING BREAST

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a God-send to women, carrying them through their most critical ordeal with safety and no pain. No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth; for it robs the ordeal of its horror and insures safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and good natured. MOORE APPOINTED SUPERINTENDENT

JOHN SPENCER BECOMES SUPT. OF NEWARK CITY LINES ON NOVEMBER 16.

Changes Grow Out of Resignation of F. A. Boutelle Who Goes to Pacific Coast.

Two important changes have been made in the management of the Indiana, Columbus and Eastern Traction company at this point. General Manager W. A. Gibbs, of this city, has had posted bulletins announcing the appointment of F. J. Moore, late superintendent of the Newark city lines, to the position of superintendent of transportation of the I. C. & E. T. Columbus to Zanesville, vice F. A. Boutelle resigned to accept a position with the Puget Sound Electric Railway. The appointment goes into effect Friday, November 16.

Mr. John Spencer, who has been assistant to the superintendent of the city lines, has been made superintendent of the city division.

AN INVITATION TO WOMEN

There is an attraction, a halo of beauty, surrounding a healthy woman that is not equalled by mere prettiness of face and figure. Yet nine women out of ten do not know how to retain their health, the one necessary aid to either beauty or happiness.

The sum total of the wisdom of the world's greatest specialists proves that nine-tenths of all women's diseases and difficulties with the menstrual period, have the same cause—uric acid.

How uric acid causes women's diseases, how to avoid menstrual disorders, and how to keep in good health is fully explained in a recent booklet on "Good Health." Every woman not in robust health may have a copy of this book free by writing for it today. This book tells the story of

LIFE PLANT versus URIC ACID.

It shows why LIFE PLANT should be in the hands of every woman. LIFE PLANT is a natural solvent of uric acid—drives it out of the blood, dissolves the deposits of uric acid out of the delicate female organs and aids them to resume their normal functions without pain.

If we could only get you to write for a copy of this free booklet on "Good Health" get you to go to your druggist for one bottle of LIFE PLANT, we would not need to advertise to you again. Any woman desiring special medical advice is invited to write to I. J. Mizer, M. D., President of

In the Tinner's Hands Decided the Banker to Pay the Bill Though He Thought It Large.

East Liverpool, O., Nov. 12.—When J. W. Cox, president of the new bank at Kensington, refused to pay a bill presented by William Kintner, a tinsmith, claiming it was excessive, Kintner said little and went out. A few minutes later he returned with a revolver in each hand, and confronting the bank president, asked him if he was going to pay. Cox looked at the revolver, replied that he was and directed his cashier to turn over to Kintner the amount that his bill called for. As yet there has been no legal action taken in the matter.

STEAMER ON FIRE.

London, Nov. 12.—The Cunard steamer Corona from New York was on fire this morning as she passed Rockpoint. How serious the blaze was no one knows. As she passed the steamer reported she was on fire. Shortly afterward she signalled that the blaze was out and she was proceeding to Liverpool. A telegram from Queenstown says that fire broke out while the vessel was in mid-Atlantic. None of the passengers was injured.

Postmaster Robbed.

G. W. Fooks, Postmaster at River-ton, Jan., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for Biliousness, Nourishment, Weakness and all Stomach, Liver, Kidney and Bladder derangements. A wonderful tonic. At F. D. Hall's drug store. 50 cents.

STEEL TIE WITH WOODEN CUSHION

NEWARK MAN SECURES PATENT THAT ATTRACTS ATTENTION OF RAILWAY MEN.

Wage Increase—Warning Received—"All Aboard" Now in Time—Railway News.

Mr. J. Campbell of Maple avenue has recently taken out letters patent for a steel railroad tie with a wooden cushion under the rails, which has attracted the attention of railroad men in such manner as to encourage Mr. Campbell in the belief that he has devised an improvement in railroad construction that will be of the most substantial value and one that will surely be adopted by both stream and valley roads. The wooden cushion in question is nicely dovetailed in the body of the tie, so as to prevent its slipping from its place, and when once the rails are fastened to it there is no possibility of their spreading, which will save great annoyance in the running of trains and effectually remove a fruitful cause of railroad accidents. The rails when worn can be drawn into gauge to the extent of half an inch, but cannot be pressed outward beyond the gauge of the road. These ties can be used on either straight or curved tracks throughout the length of all roads.

Wage Increase.

While no official notice has been sent out, it is thought that the all-thore & Ohio will soon increase the wages of its employees on all divisions. Second Vice President Potter stated that the officials were now too busy to consider an advance. The B. & O. company is now in good condition. When President Oscar G. Murray took charge there was much to improve. He at once set to work and completely reorganized the road. It is now a big money maker and local railroad men believe the advance is but a matter of a few weeks.

"All Aboard" Now in Time.

An order has been issued by the Pennsylvania railroad company that hereafter all brakemen, Pullman conductors and porters must call out "All Aboard" in a distinct voice exactly two minutes before a train leaves a division terminal and that previous to reaching the Union station they must call out "Union station, Pittsburgh. Passengers must keep their seats till train stops." The orders have been issued to prevent any further accidents at the various terminals. At large towns where trains stop for several minutes, passengers have had a way of leaving the train and strolling up and down the platform. They are apt to wait until the minute of starting to re-enter the train.—Pittsburg Post.

Warning is Received.

Local baggage men together with all those on the B. & O. system, have received a warning from J. P. Du-

M'CANN AGAIN IN COUNTY JAIL

CHIEF SHERIDAN RETURNED ON MONDAY NIGHT WITH HIS PRISONER.

McCann Says He Stayed in Newark For Three Days After Breaking From Jail.

Mr. James S. Sheridan and Mr. Max McCann who have been spending a few days in Youngstown the guests of friends, returned to Newark Monday night. During the trip from Youngstown to this city, Mr. Sheridan and Mr. McCann were inseparable companions. The two had formed quite an attachment for each other, having met formally several weeks ago, when Mr. McCann accompanied Mr. Sheridan warmly. Their meetings on the streets of Newark have caused considerable comment because of the warmth of their greetings.

D. & O. train No. 8 was over an hour late Monday night, but when it pulled into the station Chief Sheridan alighted in company with Max McCann, jail bird and all around bad man. The men had been inseparable companions from Youngstown, inseparable from the fact that each wore a bracelet on his wrist, the two being closely linked together with nicked steel. McCann was taken directly to the county jail where he was again locked up by Jailor Christopher after shaking hands with the turnkey.

When Chief Sheridan walked into the corridor of the cell room in the Youngstown police station, McCann had just left the cell, the door having been unlocked by the turnkey at the request of the chief. The prisoner was called by name, but as Sheridan was dressed in citizen's clothes, McCann did not recognize him in the darkness of the corridor. McCann replied to Sheridan's greeting, "I don't know you."

The start was made for Newark about noon Monday. On the way to Newark the chief drew out of the man some of the particulars of the escape from the county jail on October 3. He practically admitted that the cells were unlocked before the jailer was overpowered, though he would not say who engineered the affair.

He told the chief that after he left the prison he went south over the Second street hill, where he stayed under cover until late at night when he returned to his father's home, where he remained until three days after the jail delivery after which he got a gun and some money and left the city.

He stated that after the bunch of prisoners had separated at the alieu of the jail, that he was not with George Moore nor did he see him after that. McCann stated that he knew nothing of Moore's whereabouts.

SIX CLEVELAND MEN ARE KILLED

FIVE OTHERS SERIOUSLY HURT BY EXPLOSION OF POWER HOUSE BOILER.

Roads Confiscate Coal—Race Trouble at Mt. Vernon—Foundry Accident—Ohio Budget.

Cleveland, Ohio, Nov. 12.—Six men were killed and five seriously injured when a boiler in the power house of the Lake Shore railroad in Collinwood, a suburb of Cleveland, blew up. The men were working close to the boiler building the foundation for a dynamo, when the explosion occurred. They were all in the mouth of a subway facing the end which blew out of the boiler, and were scalded to death by the immense volume of steam which shot out. The dead: Max Crawford, electrician; Albert Bloom, carpenter; A. P. Latta, pipe fitter; Paul O. Landoni, laborer; Giovanni Facioni, laborer; Julius Waeder, pipe fitter. Engineers at the plant say the explosion was due to the formation of a "mud ring" in the filtering apparatus which clarifies the water before its passage into the boiler.

Slashed by Negro. Mt. Vernon, O., Nov. 12.—Race troubles which have existed here for some time culminated in a serious cutting affray when Grant Stewart, colored, slashed George Dunn, white, with a knife so that forty-seven stitches were required to close the wound. Dunn is dying and Stewart is in jail. There was much excitement, but no further trouble is believed imminent.

Will Be Deported. Toledo, O., Nov. 12.—Deputy United States Marshal Wagner left here with Sun Sing, a Chinaman, who was arrested for being illegally in the United States. He will be taken to New Orleans where another Chinaman is to join the party, then to Houston for another, and at El Paso, Tex., six more Chinese will join the party, which will start for San Francisco where they will all be deported.

Accident in a Foundry. Youngstown, Ohio, Nov. 12.—One man was killed, three fatally and two seriously injured in the explosion of a casting at the Youngstown Foundry and Machine company's plant. Michael Key, a furnace man, was terribly burned and was killed. The fatally injured are Joe Seriton, Charles Crov, and John Meshaak. Those injured seriously are Percy Parrock and Clayton English.

Mad Dogs at Large. Ravenna, O., Nov. 12.—Mad dogs are legion in southern Portage county. Five have been killed in a week and others are at large. Many dogs and other animals have been bitten and an epidemic of rabies is feared. The whole countryside is now on the lookout for mad dogs and cattle with rabies.

Denied New Trial. Bryan, O., Nov. 12.—William Masters, found guilty of shooting with intent to kill Theo Nemeyer, a surveyor, was sentenced to serve 10 years in the Ohio penitentiary by Judge J. M. Kilbitt after overruling the motion for a new trial. Masters was accused of crossing the costs of a new trial. Sentence was suspended until November 20 to allow his attorneys time to present a bill of exceptions to carry the case to the circuit court. Bond was placed at \$5000.

Veterans Want Monument. Salem, O., Nov. 12.—Civil war veterans expect to bring before the next session of the legislature a petition asking that the state erect a suitable monument to Ohio troops on the battlefield at Stone River, Tenn. Ohio troops were in the majority and conspicuous in the three day's battle there, and the battleground is yet unmarked.

Ladd Put Away. Springfield, O., Nov. 12.—Preston Ladd of Bellefontaine pleaded guilty here to cutting to kill and was sentenced to the penitentiary for five years. Ladd was a pal of Ed Dean, colored, convicted of murdering brakeman Mark Davis of Columbus. The bander was killed in the race riots in this city not long ago.

Girl Took Poison. Piusburg, Pa., Nov. 12.—Miss Daisy North, 22, of Perry, O., was taken to a hospital in a dying condition after taking poison. In her possession was a package of love letters written to her by Harry Winters of Philadelphia. The letters gave the only clue to her identity.

Serious Affair. Portsmouth, O., Nov. 12.—Following a carousal Horace Rockwell was shot through the back by Robert Starrett, a brick worker, whose home is in Marysville. Rockwell is in critical condition. Starrett was arrested and bound over in the sum of \$500.

Shot by Highwayman. Mt. Vernon, O., Nov. 12.—R. P. Bailey, a gas well driller, who came here recently from Parkersburg, W. Va., was held up in this city. He attempted to escape and was shot through the right arm near the shoulder. His assailant escaped.

Passed Bogus Checks. Sandusky, O., Nov. 12.—An unknown forger succeeded in passing many checks on merchants for an

Clubbed to Death. Lodi, O., Nov. 12.—Mrs. Peter Nedada, wife of an Austrian laborer, was clubbed to death by one of four Austrians, who attacked her husband. The men escaped.

Roads Confiscate Coal. Toledo, O., Nov. 12.—This city is threatened with a coal famine unless milder weather sets in. It is the worst coal shortage experienced in five years. Efforts to move coal in Toledo are fruitless as the railroads are short of cars. Two roads have withdrawn in the past week confiscated coal consigned to Toledo dealers. Coal carrying roads into Toledo say no immediate relief is in sight. Ten days will exhaust the present supply.

Quarantine Convention. Nashville, Tenn., Nov. 12.—The committee on organization of the Southern Immigration and Quarantine convention decided to recommend to the convention the nomination of Governor D. C. Haywood of South Carolina for president and Dr. J. R. McMullen of Gadsden, Ala., for secretary-treasurer. The committee favors the holding of the next annual convention in Birmingham, Ala., the second Tuesday in November.
